What is the Battelle Climate Challenge?

- If you are a 9-12th grade student in the United States, your challenge is to research past and future impacts of climate-related hazards in your community, including drought, wildfire, flooding, and extreme heat, then develop a proposed action to help build a more resilient community. Your entry must be original and include a written explanation of your proposed climate action (200 words max) and an image (max 3GB) of a “poster” that supports your climate action. The poster can be a digital design or a photo of a hand-made poster. Your climate action should explain at least one way your community can prevent, withstand, respond to, or recover from a climate-related event.

Who can enter?

- Individual ninth to twelfth grade students attending a public, private, or home school in the United States, including U.S. territories or possessions and schools operated by the U.S. for the children of US personnel overseas. For all eligibility requirements, please refer to the [rules](#).
