

THE EGG DROP VIDEO CHALLENGE RULES

Page 1 of 3

The Challenge:

Your challenge is to create a system that protects a raw egg when dropped from a height of eight feet using any of the following items: paper plates, straws, balloons, rubber bands, paper cups, and/or tape. The smaller your solution, the higher it will score. Submit a video of your egg drop, including a thumbnail image and a description of your design. The video must show whether the egg was cracked or not after the drop. Be sure to review the **CONTEST RULES** and **DESIGN GUIDELINES** for all challenge details including the privacy rules: **NO FACES, VOICES, or NAMES** in your entry! Also **NO MUSIC** in the video. Eggs-ercise your creativity... and good luck!

Who Can Enter

Students in Grades Kindergarten through Twelfth Grade attending a public, private, or home school in the United States, including schools in the 50 US States and DC, US territories and US soil abroad.

Privacy Rules

Submissions will be reviewed for online privacy and student safety prior to being displayed in the gallery. Entries that moderators find to have personal information will be flagged for resubmission (or rejected if after the deadline).

 **NO NAMES OF PEOPLE!** Don't write or show your full first and last name, or anyone else's name in your text, title, video, or image. Referencing historical figures is OK in your description if needed to explain your design.

 **NO FACES OR VOICES!** Do not include your face, voice, or anyone else's face or voice in your video. Crowd count-downs (3,2,1...) and reaction noises are fine, but no words that are identifiable to a specific person. If in doubt, please remove sound from your video before submission.
